

Doggone Tired of a Dirty Dog Park?

DOG PARK CLEANING

Does your dog park look and smell unpleasant - even after it's cleaned? Fresh Foam's Dog Park Cleaning & Deodorizing Service makes your property enjoyable and welcoming for pets and their owners!

Dog parks come in all sizes - just like their visitors!

Much like each breed needs unique care and treatment, each dog park requires specific maintenance. At Fresh Foam, we understand that there is no "one size fits all" method for cleaning and deodorizing dog parks.

Our certified cleaning professionals employ a more technical approach to their methods. Based on the type of subsurface and drainage system in place, our team will adjust their methods to ensure that each dog park is safely, efficiently and effectively cleaned and deodorized!

Benefits of Fresh Foam's Dog Park Cleaning & Deodorizing Services

- ✓ Trained and IICRC-certified technicians and an in-house licensed landscape architect evaluate each location and develop a customized plan to thoroughly clean and deodorize the dog park without damaging the subsurface materials and drainage system.
- ✓ Three-Step Process that physically removes waste, dirt, debris and hair with a high-grade HEPA vacuum, eliminates bacteria from surfaces with a pet-friendly disinfectant wash, and deodorizes the area with our cutting-edge foam product.
- ✓ Perfect for multifamily properties, veterinarians, dog daycare centers and boarding facilities. Work with one service provider to clean your property's dog park, carpets, trash maintenance areas and more.
